

South Annville Poll

Lines form at 7AM and 5PM when people go to and from work. During drive and other times, people with physical challenges or small children may have to park behind the Fontana church and cross Route 322 in low light or darkness. A small hill hinders line-of-sight and a concrete flume forces voters to walk on the street. **When a safety hazard is known, if corrective action is not taken, we put the County at risk.**

At 7AM, approximately 40 people waited in line to vote. Clearly more than 17 parking spaces are needed to accommodate this volume of voters. Starting in 2009, construction of **571 new homes** will require even more parking.

South Annville voters wait their turns outside the township's new polling place, Zion Evangelical Congregational Church on Route 934 south of Annville-Cleona High School. The change was made in anticipation of a big crowd, which would have created a road hazard at the township building in Fontana. (Steve Snyder / Lebanon Daily News)
